Newspaper article published in 1733 regarding Daniel Robins of Hunterdon Co., NJ.

The Boston Gazette Issue 708
 Boston, Mass page 2
 Monday 23 Jul to Monday 30 Jul 1733

Hunterdon County in New Jersey, July 9. To give an Instance of the Health, Constitution and Fruitfulness of our North America born People: There is one DANIEL ROBINS, aged about 66 Years, born in North America, and is now living in the said County of Hunterdon, he is so Strong & Healthy, that he hath lately travelled oftentimes 40 Miles a Day, rather than ride an easy Horse. He is the Father of Thirteen Children, Eleven of which are married, and by them he hath had Sixty Two Grand-Children, born in less than Eighteen Years time, which with his other Children, makes Seventy five Persons, besides eleven Sons & Daughters In-Law, so that though he is but about half the Age of Jacob, when he went down to Egypt, yet he hath more Children and Grand-Children then Jacob then had, and with a more remarkable Blessing, he never lost Child nor Grand-Child, Son in-law nor Daughter-in-law in his Life. And said Daniel Robins with every one of his Children and Grand-Children, Sons in law and Daughters in-law have their Health, perfect Sences and Limbs. Thus it appears, that said Daniel Robins hath successfully kept and fulfilled that great and necessary Commandment of Multiply, be Fruitfull and Replenish the Earth. In this Wilderness Country, and by what hath been already said of him, he hath kept every other Commandment as truly and as well as he hath done that.

 **Date:** 1733
