I also have family from Giles County, Virginia. My research started with Edward Hale who lived and died in Giles County and his wife was Martha Patsy Perdue Hale. Edward was born abt. 1750, and him and Patsy were married abt 1785, according to my information. Their children were: Thomas; Charles; Isaac; Isaiah; Daneil; Elias; William; Jessie; Mary, or maybe known as Polly; and Phoebe. I have copies of the wills of both Edward and Patsy.

Edward's father was John, but unsure of mother's name. John's father was Nicholas and mother was Frances Garrett, or maybe Broad, could be from another marriage. John's father was Nicholas Sr. and mother was Mary, last name unknown at present.

Nicholas Sr.'s father was George, wife unknown by name.

George was believed to come from Kent England where the family was quite big in number. At first they settled in the Tidewater area, then moved into Franklin County of VA then on to Giles County, and Bland County area's. If this is any help, let me know.. I also have Edward's children, their children and theirs all the way back to where I come into the family tree. I hope this helps, Please let me know.... Lisa
